

Peer Support for Work Network

We are setting up Peer Support for Work Hubs in **four areas of Scotland** for people to come along and meet other people and share ideas and experiences

We have a **closed facebook group** for you to join so you can feel safe talking online to other people who have similar experiences to you

We have a list on our facebook group of where all **our Peer Support for Work Hubs** are so you can have a look and see if there's one near you
